HCLSoftware Certification Program

HCLSoftware Certified Professional - AppScan Enterprise 10
Certification Exam Guide

Introduction

This **Professional level** exam certifies that the successful candidate is familiar with the basic features of HCL AppScan Enterprise. The successful candidate must demonstrate a basic knowledge of HCL AppScan Enterprise Features. They must know how to use the features of Application Attributes, Application Inventory Management, Application Security Management, AppScan Enterprise Components, Job Management in AppScan Enterprise, Managing Application Security Risk and Scan Management in AppScan Enterprise.

Recommended Skills

- Foundational Understanding of Security Concepts
- Proficiency with AppScan Enterprise User Interface
- Insight into application attributes and configurations
- Expertise in managing application security
- Ability to leverage dashboards and reporting for decision-making
- Capability to analyze risks and prioritize vulnerabilities
- Understanding of risk remediation strategies
- Knowledge of scan scheduling and management

Exam Format

- Multiple Choice – one correct response out of choices
- Multiple Response – two or more correct responses out of four or more choices
- Number of questions : 50
- Passing Score : 70% (35/50)
- Exam duration : 75 minutes

Unanswered questions are scored as incorrect so there is no harm in guessing.

Exam Results

The exam is scored using the method which is the lowest pass/fail cutoff score that a minimally qualified candidate is likely to achieve on the exam. This score was calculated by using a panel of subject matter experts who reviewed each question and performed an assessment of the level of difficulty of each question. This assessment is a prediction of the number of minimally qualified candidates that will answer the question correctly.

HCL-ASE-PROF-10

Based on this review, the minimum score required to pass the exam is **35** out of a possible of 50.

HCL Software Certification Program

Your Score report could contain a table of exam competencies that illustrates your performance at each of the areas that were tested. This information is intended to provide general feedback about your exam performance and help you determine the areas where further study might be required. You do not need to achieve a passing score for each competency area. You only need to pass the overall exam.
